WORK EXPERIENCE

MOBILE DEVELOPER

Gigacover — Nov 2020 - Present

As a mobile developer, I work for Gigacover company to develop many types of insurance products for Singapore, Indonesia, and the Philippines.

- Discuss to understand how the business works and receive task requests.
- Receiving the design on Figma and making them perfect on mobile.
- Writing unit test.

Technologies used: React.js, RN, Expo.

FULL-STACK DEVELOPER

Zigvy Corporation — May 2020 - Oct 2020

As a full-stack developer, I worked for Zigvy - an outsourcing company with products from the USA.

- Making REST API functions.
- Receiving design prototypes and making them perfect.
- Developing and maintaining the chat app with many features like Slack.
- Writing unit test, automation test.

Techologies used: React.js, RN, Express, MongoDB.

FULL-STACK DEVELOPER

Biti's — Nov 2018 - Apr 2020

Working for the company as a full-stack developer, I have more times to work on many projects about Loyalty apps promotion campaigns and staff management.

- Designing pattern databases and making REST API functions.
- Managing and assigning task requests with the team.
- Work on the website and mobile apps.

Techologies used: Strapi (Headless CMS), Reactjs/React native, MongoDB, MySQL.

EMBEDDED ENGINEERING

Memstech JSC

Jan 2017 - Oct 2018

My role in the company is as an embedded software engineer. All projects are aimed Internet of Things.

Responsibility: Researching and developing software programming on microcontroller unit.

ACTIVITIES

Self Directed Volunteers

2018

My friends and I have raised funds from all volunteers. We set up quality meals and moved around many districts in HCM city for giving to unfortunate person - who have difficult circumstances.
